### Project: PENCIL TO PIXELS

In this day and age, digital editing skills are in huge demand. If you are able to build on your knowledge of the elements and principles of art and design using the digital medium, many doors will open up for you. If this is something you enjoy, you may want to become an animator, graphic artist, designer, advertiser, or video game designer. I hope this project will help you decide if this is something you may be interested in.

- I can create a video of my work using Ibis Paint.
- I can create an Andy Warhol-inspired collage using the . [Click here](#) to see some examples similar to the ones shown in class.
