

British Columbia Plant Identification and First Nations use Project

Mountain Ash (*Rosaceae, Sorbus, aucuparia*)

In your group, create a way to share what you have learned (poster, slide show, video, book, etc.):
What you create must include the following **criteria**:

- At least 12 different plants found in the area
- The names of each plant (common name and scientific name)
- At least 1 Indigenous use for each plant
- An image of each plant (the whole plant/tree)
- A pressed and dried leaf sample
- A sketch of each plants leaves
- A rubbing of each plant leaves
- A source list from research

****Each group member is responsible identifying each plant by its common name****

<i>Name</i>	<i>Project Responsibilities</i>

Evaluation will be based on: (see reverse for learning intentions and self-reflection form)

- Project criteria
- Clarity, readability and organization of finished project
- Ability to name and identify plants
- Cooperation and group work
- Connecting learning to the world

Learning intention: I can make connections between what I learn and the world					
Synthesize, Connect and Extend: Why do you think it is important to learn the names of the plants in the community you live? Why do you think it is important to learn how plants were used by First Nations people?	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="text-align: center; padding: 2px;">BEGINNING <i>(Not Yet)</i></td> <td style="text-align: center; padding: 2px;">DEVELOPING <i>(A Good Start)</i></td> <td style="text-align: center; padding: 2px;">APPLYING <i>(Almost There)</i></td> <td style="text-align: center; padding: 2px;">EXTENDING <i>(You Got it!)</i></td> </tr> </table>	BEGINNING <i>(Not Yet)</i>	DEVELOPING <i>(A Good Start)</i>	APPLYING <i>(Almost There)</i>	EXTENDING <i>(You Got it!)</i>
